

Fancy

[Verse 1]

We aren't living like I thought we would
You and I
With all the luxury we bought just 'cause we could
And had too much time
And everything I never thought that I'd need
I'm mortified
To see it stacking it up around me
On every sight

[Chorus]

Baby, please believe in me
I don't need fancy
Is it greed or just too easy for you and me
Too fancy?
The glitter and the gold
That feels like safety and control
They're borrowed wings
I don't need those things

[Verse 2]

Now I can see how we could lose our heads
You and I
Everybody's tryna see how rich they can get
And so you and I
But the woman who I thought I'd be would show some modesty
She'd not be unsatisfied with this life
I feel we're further from the top the higher we get
You and I

[Chorus]

Baby, please believe in me
I don't need fancy
Is it greed or just too easy for you and me
Too fancy?
The glitter and the gold
That feels like safety and control
They're borrowed wings
And I don't need those things

[Chorus]

Baby, please believe in me
I don't need fancy
Is it greed or just too easy for you and me
Too fancy?
Baby, please believe in me
I don't need fancy
We're just greedy, it's greed
I don't need fancy
The glitter and the gold
That feels like safety and control
They're borrowed wings
We don't need those things
