Radio Romance

A universe grows on my body
Where your hand touches me
And suddenly life gives me back
All that it has taken from me
My god
He blew love in my chest
(x2)

O' time! It is hard for me
To forgive the times of deprivation
That's it, shame is in the past

You, the one I got in this world
The years before you were bland
Your love justifies my existence

A universe grows on my body
Where your hand touches me
And suddenly life gives me back
All that it has taken from me
My god
He blew love in my chest
(x2)

My beloved free me of my ignorance
Compensate the years that have past me

A universe grows on my body
Where your hand touches me
And suddenly life gives me back
All that it has taken from me
My god
He blew love in my chest
(x4)
